# STUDENT RECRUITMENT BROCHURE

WELCOME TO CHONGQING JIAOTONG UNIVERSITY

## ENJOY CHONGQING CULTURE ONLINE AND BUILD A BRIDGE OF COMMUNICATION TOGETHER

### INTRODUCTION TO CHONGQING JIAOTONG UNIVERSITY

Chongqing Jiaotong University, founded in 1951, is a multidisciplinary university authorized to grant doctorate's, master's and bachelor's degrees. The University is famous for its engineering curriculum, while focusing on the coordinated development of engineering, management, science, economics, literature, law and other disciplines. The University began to recruit foreign students from 2004, and now offers undergraduate, postgraduate and doctoral education as well as mid- and short-term Chinese training for foreign students. Chongqing Jiaotong University has two Confucius Institutes (the Confucius Institute at University of Abomey-Calavi in Benin and the Confucius Institute of State of Washington in the United States), two national and regional research bases (Benin Research Center and European Research Center), a Chinese language and culture training center, and an HSK online examination site. We have organized a series of Confucius Institute Summer Camps, Chinese Culture Summer Camps and "Chinese Bridge" Winter Camps. We have harvested prominent fruits in Chinese language teaching with unique courses, and some of the foreign students won gold and silver prizes in the "Chinese Bridge", a Chinese Proficiency Competition for Foreign College Students.

### INTRODUCTION TO "CHINESE BRIDGE" WINTER CAMP

Themed on "Enjoying Chongqing Culture Online and Building a Bridge of Communication Together", the "Chinese Bridge" winter camp project online is sponsored by the Center for Language Education and Cooperation of the Ministry of Education and undertaken by the University. The project consists of three parts: Chinese learning, cultural experience and online tour. Chinese learning is mainly based on practical daily Chinese, involving all aspects of everyday life such as food, clothing, housing and travelling. Cultural experience focuses on martial arts, paper-cut, tea art, calligraphy and painting, allowing students to feel the charm of Chinese culture in a virtual environment. At the same time, through the interaction and online tour of multiple themes such as Picturesque Chongqing, Magic Chongqing, and Hot Chongqing, assisted by English voice-over, students can travel around Chongqing to enjoy the scenes of China, so that learners at home and abroad can have a better understanding about Chongqing culture, have more interest and efficiency in learning Chinese so as to promote cultural exchanges between China and foreign countries.

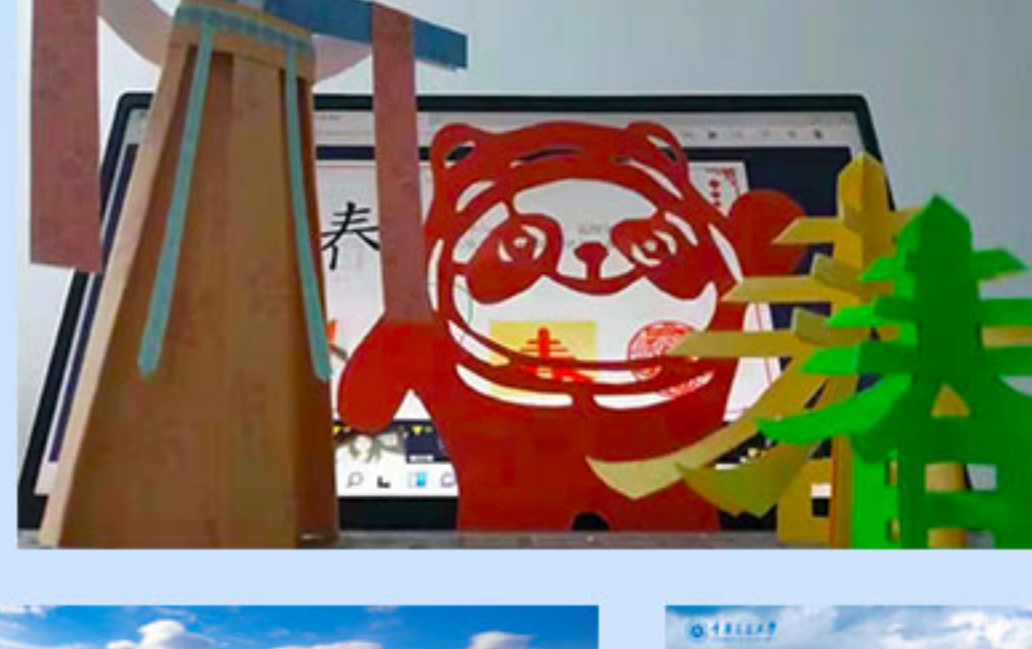

### TEACHING OBJECTIVES & TEACHING METHODS

Objectives:

1. Open a window for overseas students to understand China and feel Chongqing culture;
2. Through listening to and discussing the stories of Chongqing, engage students deeply in the discussion of contemporary Chongqing topics, and improve their Chinese proficiency;
3. Enable students to learn relevant Chinese knowledge, understand the latest hot topics in the modern China, and improve cross-cultural adaptability.

Methods:

1. Make full use of a variety of online methods, such as livestreaming teaching, video courses and online activities, in order to display the Chongqing culture in a vivid way and stimulate students' interest in learning;
2. Encourage students to immerse into learning scenarios, raise and solve problems, and improve their Chinese expression ability through online practice and discussion.
